## **DETAILED ACTION**

## Claim Rejections - 35 USC § 103

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negatived by the manner in which the invention was made.

Claims 19-42 are rejected under 35 U.S.C. 103(a) as being unpatentable over Raaijmakers, of record, in view of Kim et al (2002/0195683). The Raaijmakers reference teaches the basic structure of the invention including the formation of a capacitor in a DRAM where the lower plate of the capacitor is formed of silicon, and which includes multiple dielectric layers including aluminum oxide and a second dielectric other than aluminum oxide, such as titanium oxide, tantalum oxide, hafnium oxide and zirconium oxide, as claimed.

The reference to Kim also teaches the formation of such a capacitor using multiple dielectrics including aluminum oxide on the surface of a planar silicon layer. See, for example, FIG. 1 and the discussion at [0030] in Kim. Kim also teaches the claimed dimensions and non-aluminum oxide dielectrics. Thus, taken together, these references show all of the claimed features of the invention.

One skilled in the art would be motivated to combine these references in order to form a capacitor with improved dielectric characteristics on a planar silicon layer.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Edward Wojciechowicz whose telephone number is 571-272-1739. The examiner can normally be reached on Monday through Thursday.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Tom Thomas can be reached on (571) 272-1664. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
